

Guyana Mission Trip, 7 Miles Kumaka Kubanna Road, Morucka Region 1
Interior Regions of The Country
Tuesday evening, February 21, 2006

Pastor Tony:

It was before starting time and the church building was full. Through the jungle and up the trails they continued to come. People everywhere, all over the outside. Eyeballs peering in every crack, window holes and siding gaps in the building. Can you picture it? It seems Jesus is still drawing crowds from afar!

The miracles have been intense, varied and numerous and the word has gotten around the mountain very fast! There have been totally blind eyes completely restored, a few totally deaf people totally restored, tumors disappeared. I like what one of the ladies told us. She received prayer for a tumor on her leg that she had for quite a while, getting worse. She received prayer from one of the team last night and when she went to the creek to wash up this morning, saw something marvelous. As she went to wash that spot where the tumor was, the tumor FELL OFF! Yea God!

There were pastors that haven't spoken to each other in years become reconciled last night, realizing that it was never about 'their church' but about 'The Kingdom of God' and they must work together. There has been lots of tears, lots of laughter, lots of waking up, lots of deliverance. These folks hang on the edge of their bench (no padding and no backs- just a rough wood board) for hours with such expectancy that you can literally feel it!

The veil between realms was extremely thin and easily punctured. There was a man that was like blind Bartemaus; when I would say something he would respond with such hunger and enthusiasm I could feel Holy Spirit drawn to him. He was called out, downloaded with gifts and he stepped into his call tonight. As he walked with us (7 mile hike) on the way out Wednesday morning he shared the vision that was imparted to him during the impartation service. It was really cool listening to him share the various details of the ministry vision he received. He got so much he had to write it down in his notebook. He is making IMMEDIATE plans to go to a needy jungle area and begin a new work. Yea God!

Impartation time was tremendous. It is also a great time for the prophetic to grow for the team members.

Harvey:

Worship tonight was off the charts again. During worship we were drinking of the Holy Spirit and Casey, Tony and I wound up on the floor. God was doing some very intense work in us. God used the mock deliverance from the morning meeting to set the stage to show me a time where I had received rejection as a youth and I got set free from it. Sure felt good.

After worship Tony gave a message and then we began to pray after words of knowledge. I prayed for a woman who said her left eye was blind and she could not see very well out of the right one. She was totally healed. Yea God. After God healed her eyes she said her neck hurt, so I prayed for that and the pain went away. Praise the Lord.

Thanks for all the prayers. Later

Casey:

Well it was our last service here in the little church in the jungle and as always on the last night the playground was open for anyone to come play and play we did. It started in worship and much like the night before some of us ended up on the dirty wooded floor. It seemed like we were there for hours and the weight of God kept us pinned to the floor. That didn't seem to stop or hinder the others as they just danced around us. The floor was bouncing so hard I thought I was going to lose a filling. That's when God took me into a vision and showed me what He wanted to do for them tonight.

The vision was of a big heart that began to burst and a white light like liquid began to pour out. I saw hands reaching for the liquid and when it touched the hands it turned into fire and began to consume them. It was real cool and I also got to release that vision for them.

Before we prayed for impartation we prayed for healing and I prayed for this one lady that needed healing in her marriage. I prayed for her and God was doing something in her as she began to weep. I really thought she was coming up for healing in her eye but when I asked if she needed or wanted prayer for anything else she smiled and said "no, I got what I came for." I just pray God will touch her eye anyway.

The other girl I prayed for was depressed and had never felt the Holy Spirit so she went through some quick deliverance and got a big shot of Holy Ghost. She didn't quite know what to do or think when she started to vibrate uncontrollably. I told her that it was God touching her and then came the smile and laughter and she said God does love me.

Now it was impartation time and what can I share about this? Well it was a bunch of fun and we prayed for a long long long time and everyone was getting touched. We all were flowing in the prophetic and just seemed to be in the river all night. Lots of fun. Blessing to all thanks for praying for us!

Igor:

Impartation was pretty awesome. I got a word of knowledge for some one with chest pain. Some one came up for that and got healed. We imparted and after that happened. I went out side and there were some kids about 15 that were looking in to the building caz they didn't see anything like this before. I prayed for one of them. He had feet pain and God healed him. It was sweet.

The next day we went to the 7 mile hike and we stopped at pastor's house to pray for his wife. I got a word of knowledge that his daughter had chest pain. So I said does any one have it and she had it. So I prayed for her and she got healed. It was really really really a blessing to be used like that by GOD.

WES:

What an awesome night. Worship was out of this world. The service started about six thirty and never ended until about eleven forty five. The people did not want to leave even when it was over. Danced before the LORD for what seemed like hours. About halfway through worship my right foot hurt so bad that I thought about sitting down. Sherwin came to me at about that time and grabbed my hand and we kept dancing and worshipping to the song "HOLY GHOST all over me". I realized later that the pain disappeared and we got totally lost in worship. When it was over I had sweated so much that there was a puddle where I standing. I was soaked from head to toe.

What a joy to worship to be able to worship in church and not get stopped because of a schedule. I am beginning to realize that FATHER GOD gets excited when we do not put him in a box and give Him our all and do not worry about time. HE has sure been showing up and moving in mighty ways.

After some words of knowledge we prayed for people for healing One word was for burning in lower belly, not pain just burning. The first three people I prayed for was for this All were healed. The first lady stands out in my mind. After I prayed for her she said the burning was gone and went to her legs. I knew then that I was dealing with a spirit of infirmity. Tony taught me this on our day here while praying for another lady. As I prayed the second time it moved to her feet. On round three she started shaking her foot and stomping it on the floor.. You should have seen the joy on her face.

A man came to me with migraines and lower back pain, hip and leg pain. As I was praying for him he began smiling, and by the time I was through praying he was totally healed. During the impartation of the anointing I had a scripture for a woman that I was praying for. As I shared it with her she started shaking and shouting as the HOLY SPIRIT got all over her. I almost forgot, I gave a word of knowledge to the church, God had shown me that there was someone there that was about to give up on GOD. They were ready to walk away because they did not think HE cared about them any more and was not answering their prayers. I found out later that Tony Prayed for a lady that he felt that word was for. She had strayed from GOD and was living with a man and her life had become a mess. She said she could not take it any longer. Tony prayed with her and led her through a lot of deliverance. Praise GOD for his mercy and grace.

Pastor Randy:

Tonight the Seven Mile church was hopping! Wes and I were worshipping in the center aisle of the church shoulder to shoulder among the Amerindian people. I looked down at the floor and wondered why the wood floor was dark in front of us and realized it was from the sweat dripping from us. What a powerful abandoned worship time we had. The Amerindian people know how to praise the Lord. I have learned much from them.

I tried very closely to follow the Father's lead in who I should pray for. I saw a man in the back of the church and knew I must pray for him. I had a strong prophetic picture of Gideon and Saint Thomas. I said to him that each had doubts yet God honored them and both served God powerfully, and thought he had doubts and questions before the Lord, that God would answer him and honor his wanting to know the truth, and he would serve the Lord powerfully also.

Pastor Tony and I prayed again for the little girl who had the knee problem as she said it was hurting. I placed my hand on her left knee and Tony placed his hand on mine. I felt popping going on under my hand. Something powerfully was going on. I sealed the work by the Holy Spirit and confessed that the good work which the Lord had started would continue till it was completed. I asked pastor Anil to follow up on the girl, and to let us know how she is doing.

Sherwin:

WOW! I just want to give God praise to be in the evening service! As we were worshipping God, Tony, Casey & Harvey were having a ball with God! So, they fell at the ground and started swimming in the Spirit. They were so drunk they took a while before they got up. The worship was so awesome! Then we impartation of what Holy Spirit had given to us, we just gave it all to them.

There was a lady that told me she needed prayer troubled with pain in her chest and throat was closing off. As I pray and asked Holy Spirit to come with His love, I take authority over the afflicting spirits and I renounce in the Name of Jesus. I command the spirit that was responsible for the problem to go in Jesus Name! I asked her how she felt; she told me the pain had left her chest, but no release in the throat. As I prayed a few more times the pain wouldn't leave her throat. The Spirit of God witnessed to me that she had a spirit of unforgiveness. I asked her if anyone had hurt her and she said yes! She said that there was a pastor and his wife that hurt her so bad, she asked them for forgiveness but they did not respond. I told her you must forgive from your heart. I asked her if she was willing to forgive, she said yes. As she did that, she pronounced a blessing upon them. As she did that, she started to cry. I asked her what happened, she told me ALL THE PAIN LEFT HER THROAT!!! She just wanted to thank God for her healing.

All praise, honor and glory to God. He is awesome!

Pastor ANIL:

Greetings to you in the name of our Lord Jesus Christ, it was the final night of our meeting which is the best of it all because it is impartation service, before that part begin we had the word of knowledge flowing so there was many words came fort so as the people came forward the Holy Ghost took over so as I begin praying for the people.

One woman had pain all over body so as I begin praying for her all the pain leave her body. She then began rejoicing. I then prayed for a next woman who was suffering from a severe back pain, and she was instantly healed by the power of God. As we began to do impartation Holy Ghost just took over the people life so they could not have stand on their feet they fell under the power of God.

Praise be unto God for the great things He has done. Amen.
